FACULTY OF DENTAL SCIENCES

ALUMNI PEP TALK REPORT

The Alumni committee conducted a Professional enhancement talk on 21.05.2019, Tuesday at our dental college by our alumni speaker, Dr.Prazwala (Alumnae B.D.S 1997-1998 batch).The talk was attended by around 65 of our faculties and interns. We got to experience her journey to Harvard university under the title " Yours toothfully". Dr.Prazwala shared about how to keep ourselves focussed to our work and aim higher in life to achieve our goals. The speaker was felicitated on stage by our beloved Dean, Dr.C.Ravindran. She thanked all the senior faculties of our college for setting her roots deep and stronger to face tough situations to be crossed during her journey. Her talk was quite emotional and motivational for students to push themselves from within to seek the path of life.
